

INKED FIT ELITE

THE 10% BLUEPRINT

VOLUME 2: COMPLETE 12-WORKOUT MATRIX & 7-DAY FUEL
CUSTOMIZATION

A hyper-detailed body recomposition program engineered strictly for the 80kg high-threshold athlete. Fully optimized training loops and a 7-day precise nutritional map.

01 / PRINCIPLES OF THE 80KG RECOMPOSITION MATRIX

To execute an elite recomposition, your programming volume must match strict biomechanical parameters. For an **80kg athlete**, retaining and stacking dense sarcomere contractile fibers while shredding fat cells requires an exact exercise allocation: **Minimum 4 exercises for large muscle complexes** (Chest, Back, Quads/Hamstrings) to maximize neural drive and mechanical tension, and **minimum 3 exercises for smaller groups** (Shoulders, Biceps, Triceps, Abs) to induce extreme metabolic fatigue and intracellular sarcoplasmic swelling.

TARGET DAILY ENERGY ALLOCATION:

Total Energy: 2,150 kcal

Protein Structure: 176g (Optimal MPS retention)

Carbohydrates: 190g (Glycogen threshold)

Essential Fats: 62g (Androgenic stabilization)

02 / THE COMPLETE 12-WORKOUT PROTOCOL MATRIX

This is your complete, uncompromised 12-workout matrix. It functions as a progressive 4-week high-threshold training loop. Every muscle group receives exact angle manipulation. Do not alter the order of movements.

THE MANDATORY ULTRA-PREMIUM WARM-UP

Perform this exact loop prior to every single training block to lubricate the joint capsules and unlock full motor-unit recruitment:

- **Incline Walking:** 5-7 Minutes (Heart Rate target: 110 BPM).
- **Cuff Cable Internal/External Rotations:** 2 Sets x 15 Reps (Slow, continuous tempo).
- **Scapular Hanging Pulls + Band Pull-Aparts:** 2 Sets x 12 Reps each.
- **Barbell Only Specific Patterns:** 2 Sets x 8 Reps of the primary compound lift.

WEEK 1: WORKOUTS 1 - 3 (ACUTE STIMULUS LOAD)

WORKOUT 1: CHEST & SHOULDERS (VOLUME FOCUS)

TARGET ELEMENT	EXERCISE NAME	SETS	REPS	REST	EXECUTION MASTERY
CHEST (Large Group)	Incline Dumbbell Bench Press	4	6 - 8	120s	45-degree angle. Heavy mechanical tension, 3s eccentric.
	Flat Barbell Bench Press	4	8	90s	Explode from chest. Keep scapula locked flat to the bench.
	Decline Hammer Strength Press	4	10	90s	Focus on lower pectoral drive. Deep stretch at the bottom.
	High-to-Low Cable Crossovers	4	12	60s	Squeeze handles together at bottom for 2 full seconds.
SHOULDERS (Small Group)	Seated Dumbbell Shoulder Press	3	8	90s	Elbows tucked 30 degrees forward to safeguard rotator cuff.
	Standing Cable Lateral Raises	3	12 - 15	60s	Continuous lateral head tension. Do not swing hips.
	Rear Delt Pec Deck Flyes	3	15	60s	Keep hands wide. Focus purely on pulling via elbows.

WORKOUT 2: BACK & ARMS (WIDTH FOCUS)

TARGET ELEMENT	EXERCISE NAME	SETS	REPS	REST	EXECUTION MASTERY
BACK (Large Group)	Weighted Pull-Ups	4	6	120s	Full dead-stop stretch at bottom. Pull chest to bar.
	Barbell Pendlay Rows	4	8	90s	Strict flat back parallel to ground. Pull from floor each rep.
	Wide Grip Lat Pulldown	4	10	75s	Drive elbows into your back pockets. Do not lean back excessively.
	Single-Arm Dumbbell Row	4	12	90s	Stretch lats fully forward, pull dumbbell tightly to hip.

TARGET ELEMENT	EXERCISE NAME	SETS	REPS	REST	EXECUTION MASTERY
TRICEPS (Small Group)	EZ-Bar Skull Crushers	3	10	75s	Lower bar to top of forehead. Keep elbows tightly pinned.
	Cable Rope Pushdowns	3	12	60s	Flare rope ends wide at full extension. Squeeze hard.
	Overhead DB Extension	3	12	60s	Deep tricep long-head stretch at the bottom.
BICEPS (Small Group)	Incline Dumbbell Curls	3	10	75s	Seat at 45 degrees. Keep elbows completely fixed behind hips.
	Barbell Preacher Curls	3	10	60s	Stop 10% short of full lockout at bottom to protect tendons.
	Dumbbell Hammer Curls	3	12	60s	Brachialis isolation. Controlled eccentric tracking.

WORKOUT 3: LEGS & ABS (POSTERIOR CHAIN FOCUS)

TARGET ELEMENT	EXERCISE NAME	SETS	REPS	REST	EXECUTION MASTERY
LEGS (Large Group)	Barbell Back Squat	4	6	150s	Deep control below parallel. Keep spine upright and stacked.
	Romanian Deadlifts (RDL)	4	8	120s	Hinge perfectly from hips. Push glutes directly backwards.
	Leg Press (Mid-Stance)	4	10	90s	Continuous, fluid tempo. Lower platform as deep as possible.
	Lying Leg Curls	4	12	60s	Explosive contraction, slow control on the lowering phase.
ABS (Small Group)	Hanging Leg Raises	3	12 - 15	60s	Do not swing. Use lower abs to raise legs to a 90-degree angle.
	Weighted Cable Crunches	3	15	60s	Flex spine deliberately, pull elbows towards your knees.
	Ab Wheel Rollouts	3	10	60s	Brace core flat. Roll out to full length safely.

WEEK 2: WORKOUTS 4 - 6 (HYPERTROPHY DENSITY SHIFT)

WORKOUT 4: CHEST & SHOULDERS (INCLINE / UPPER CHEST FOCUS)

TARGET ELEMENT	EXERCISE NAME	SETS	REPS	REST	EXECUTION MASTERY
CHEST (Large Group)	Incline Barbell Press	4	6 - 8	120s	Lower bar to upper collarbone area cleanly.
	Incline Dumbbell Flyes	4	10	75s	Deep outer pectoral stretch. Keep elbows bent slightly.
	Flat Dumbbell Press	4	8	90s	Neutral-to-pronated rotation at top for hard inner contraction.
	Weighted Chest Dips	4	10	90s	Lean forward at 30 degrees to shift load to chest fibers.
SHOULDERS (Small Group)	Standing Barbell Overhead Press	3	8	120s	Brace glutes completely to block lumbar hyperextension.
	Seated Dumbbell Lateral Raises	3	12	60s	Completely deadens momentum. Pure lateral deltoid isolation.
	Incline Bench Rear Delt Rows	3	15	60s	Chest down on incline bench. Flare elbows wide out.

WORKOUT 5: BACK & ARMS (THICKNESS FOCUS)

TARGET ELEMENT	EXERCISE NAME	SETS	REPS	REST	EXECUTION MASTERY
BACK (Large Group)	Barbell T-Bar Rows	4	8	90s	Pull weight right into lower abdomen. Avoid vertical torso path.
	Close-Grip Cable Rows	4	10	75s	Squeeze shoulder blades flat together at peak contraction.
	Underhand Grip Lat Pulldown	4	10	75s	Maximizes lat lower attachment activation. Hold peak contraction.
	Hyperextensions (Weighted)	4	15	60s	Isolates spinal erectors and lower back safely.

TARGET ELEMENT	EXERCISE NAME	SETS	REPS	REST	EXECUTION MASTERY
TRICEPS (Small Group)	Close Grip Barbell Bench Press	3	8	90s	Hands shoulder-width apart. Lower bar to lower chest.
	Single-Arm Cable Pushdowns	3	12	45s	No handles, pull raw cable. Complete isolation.
	Dumbbell Kickbacks	3	12	60s	Lock upper arm completely parallel to torso. Extension focus.
BICEPS (Small Group)	Standing EZ-Bar Curls	3	10	75s	Keep posture rigid. Avoid any forward elbow drift.
	Dumbbell Concentration Curls	3	12	60s	Brace elbow against inner thigh. Peak contraction emphasis.
	Cable Rope Bicep Hammer Curls	3	12	60s	Constant tension path. Pull up to front of shoulders.

WORKOUT 6: LEGS & ABS (QUAD DOMINANT FOCUS)

TARGET ELEMENT	EXERCISE NAME	SETS	REPS	REST	EXECUTION MASTERY
LEGS (Large Group)	Front Squats	4	6 - 8	120s	Forces absolute upright spine. Extreme quad emphasis.
	Hack Squat Machine	4	10	90s	Lower deep under control. Keep feet low on plate for quads.
	Leg Extensions	4	15	60s	Hold full extension for 2 full seconds on every single rep.
	Seated Leg Curl	4	12	60s	Deep hamstring squeeze. Keep hips firmly down in seat.
ABS (Small Group)	Decline Bench Crunches	3	15	60s	Keep hands behind ears, do not pull your neck.
	Captain's Chair Knee Raises	3	15	60s	Roll hips upward at peak to isolate lower abdominal wall.
	Plank (Weighted)	3	60s hold	60s	Place plate on lower back. Keep body completely straight.

WEEK 3: WORKOUTS 7 - 9 (MECHANICAL STRESS INTENSIFICATION)

WORKOUT 7: CHEST & SHOULDERS (ISODYNAMIC HOLD SPLIT)

TARGET ELEMENT	EXERCISE NAME	SETS	REPS	REST	EXECUTION MASTERY
CHEST (Large Group)	Dumbbell Bench Press	4	8	90s	1-second pause at bottom of stretch window on each rep.
	Incline Smith Machine Press	4	10	90s	Controlled tempo. High upper chest fiber targeting.
	Pec Deck Machine Flyes	4	12	60s	Smash chest pads together at full contraction apex.
	Low-to-High Cable Crossovers	4	12	60s	Brings extreme focus to the upper clavicular chest head.
SHOULDERS (Small Group)	Arnold Shoulder Press	3	10	90s	Full internal-to-external rotation loop at bottom.
	Single-Arm Dumbbell Lateral Raises	3	12 - 15	60s	Hold onto rack with other arm, lean out for deeper path.
	Face Pulls (Rope Cable)	3	15	60s	Pull rope to bridge of nose, pull hands wide apart.

WORKOUT 8: BACK & ARMS (HIGH-DENSITY WIDTH SPLIT)

TARGET ELEMENT	EXERCISE NAME	SETS	REPS	REST	EXECUTION MASTERY
BACK (Large Group)	Rack Pulls (Above Knee)	4	5	120s	Pure thickness drive. Lock out upper back fully at top.
	Meadows Rows (Dumbbell/Barbell)	4	10	90s	Pronated grip on end of bar. Targets the outer upper lat.
	Straight-Arm Cable Pulldowns	4	12	60s	Keeps biceps fully out of movement. Pure lat isolation.
	V-Bar Lat Pulldowns	4	10	75s	Lean back 15 degrees. Pull tightly to lower sternum.

TARGET ELEMENT	EXERCISE NAME	SETS	REPS	REST	EXECUTION MASTERY
TRICEPS (Small Group)	Weighted Bench Dips	3	10	75s	Place plates carefully on lap. Keep back close to bench.
	V-Bar Cable Pushdowns	3	12	60s	Forces massive mechanical loading into lateral head.
	Dumbbell Overhead Extension	3	10	60s	Two hands on single heavy dumbbell. Full deep stretch.
BICEPS (Small Group)	Standing Barbell Curls	3	8	90s	Heavy load. Use strict control with zero body rock.
	Spider Curls (Incline Bench)	3	10	60s	Chest forward on bench. Pure vertical bicep isolation.
	Cross-Body Hammer Curls	3	12	60s	Curl dumbbell across body towards opposite shoulder.

WORKOUT 9: LEGS & ABS (UNILATERAL FOCUS SPLIT)

TARGET ELEMENT	EXERCISE NAME	SETS	REPS	REST	EXECUTION MASTERY
LEGS (Large Group)	Bulgarian Split Squats	4	8 (per leg)	90s	Hold dumbbells. Destroys structural imbalances, forces growth.
	Sumo Deadlifts	4	5	150s	Wide stance, drive floor away via hips and adductors.
	Leg Press (High & Wide Stance)	4	12	90s	Targets hamstrings and glutes directly off the platform.
	Standing Single-Leg Curl Machine	4	12	60s	Prevents strength asymmetry across hamstrings.
ABS (Small Group)	Hanging Windshields Wipers	3	10 total	60s	Rotational core stability, intense obliques stimulus.
	Rope Cable Woodchoppers	3	12 (side)	60s	Rotational force loading. Lock hips, rotate torso.
	Reverse Crunches	3	15	45s	Lie flat, lift pelvis upward cleanly off floor mats.

WEEK 4: WORKOUTS 10 - 12 (PEAK OVERLOAD OVERREACHING)

WORKOUT 10: CHEST & SHOULDERS (ABSOLUTE POWER LOAD)

TARGET ELEMENT	EXERCISE NAME	SETS	REPS	REST	EXECUTION MASTERY
CHEST (Large Group)	Incline Dumbbell Bench Press	4	6	120s	Peak load. Force execution at absolute maximum safe weight.
	Flat Dumbbell Bench Press	4	6	120s	Pure mechanical power profiling. Stay far from injury line.
	Hammer Strength Chest Press	4	10	90s	Continuous load velocity. Explode out out of bottom hole.
	Cable Flyes (Mid-Height Setup)	4	15	60s	High-density metabolic pump to flush tissue with blood.
SHOULDERS (Small Group)	Push Press (Barbell)	3	6	120s	Use slight leg drive to launch heavy bar overhead. Control descent.
	Dumbbell Lateral Raises (Drop Sets)	3	10 -> 10	60s	Drop weight 30% instantly after 10 reps, execute 10 more.
	Bent-Over Lateral DB Raises	3	15	60s	Maintain strict flat hinge posture. Destroy rear delts.

WORKOUT 11: BACK & ARMS (ABSOLUTE DENSITY SPLIT)

TARGET ELEMENT	EXERCISE NAME	SETS	REPS	REST	EXECUTION MASTERY
BACK (Large Group)	Conventional Barbell Deadlifts	4	5	180s	The king of posterior expansion. Pull absolute maximum load.
	Weighted Pull-Ups	4	5	120s	Add extra plate value to belt chain loop setup.
	Seated Row (Wide Neutral Grip)	4	10	75s	Squeeze upper lat and rhomboid network forcefully.
	Dumbbell Incline Rows	4	12	75s	Chest flat on bench. Complete pull with no lower back strain.

TARGET ELEMENT	EXERCISE NAME	SETS	REPS	REST	EXECUTION MASTERY
TRICEPS (Small Group)	Skull Crushers (Incline Bench)	3	10	75s	Incline setup shifts mechanical accent point beautifully.
	Cable Rope Overhead Extensions	3	12	60s	Deep stretch tracking out from low pulley setup stack.
	Straight Bar Tricep Pressdowns	3	12	60s	Lock elbows at sides, force absolute lower lockout.
BICEPS (Small Group)	Dumbbell Incline Curl (Alternating)	3	10	75s	Turn wrists outward fully at the peak of contraction.
	EZ-Bar Preacher Curls	3	10	60s	Isolates short inner bicep head for peak height.
	Reverse Grip Barbell Curls	3	12	60s	Hits brachioradialis forearm grid along with biceps.

WORKOUT 12: LEGS & ABS (MAXIMUM THRESHOLD VOLUME)

TARGET ELEMENT	EXERCISE NAME	SETS	REPS	REST	EXECUTION MASTERY
LEGS (Large Group)	Barbell Back Squats (Heavy)	4	5	180s	Absolute power output. Deep parallel verification required.
	Romanian Deadlifts (Heavy Load)	4	6	120s	Strict core wall brace. Squeeze hamstrings flat to rise.
	Walking Dumbbell Lunges	4	20 steps	90s	10 steps forward per leg. Continuous mechanical loading path.
	Seated Leg Press Calf Raises	4	15	60s	Massive extension, deep painful stretch holds at bottom.
ABS (Small Group)	Toes-to-Bar	3	10	60s	Complete advanced spinal core flexion under bar control.
	Cable Russian Twists	3	15 (side)	60s	Brace torso, pull cable cleanly across body line via obliques.
	Hanging Straight Knee Raises	3	20	45s	Complete high reps till complete localized burn failure point.

03 / THE 7-DAY ELITE NUTRITION MATRIX

An 80kg athlete must shift carbohydrate timing dynamically to protect training output while remaining in an uncompromised fat burn state. Here is your full **7-Day Custom Menu Loop**. Every day hits the strict recomposition target cleanly.

DAY 1: HIGH LATS / CHEST LOADING PROFILE

Meal 1 (08:00)	4 Whole Pasture Eggs + 60g Raw Rolled Oats + 40g Fresh Blueberries. Clean coffee.	P: 32g F: 24g C: 46g
Meal 2 (13:00)	200g Chicken Breast (Weighed raw) + 75g Dry Basmati Rice + 150g Roasted Asparagus + 10ml Virgin Olive Oil.	P: 48g F: 12g C: 61g
Meal 3 (17:00)	35g Whey Protein Isolate + 1 Large Banana + 2 Plain Crunchy Rice Cakes.	P: 30g F: 1g C: 38g
Meal 4 (20:30)	180g Lean Beef Tenderloin + 250g Sweet Potato (Baked) + Large Spinach Green Salad + 10g Crushed Walnuts.	P: 46g F: 22g C: 47g

DAY 2: POSTERIOR CHAIN RECOVERY PROFILE

Meal 1 (08:00)	200g Liquid Egg Whites + 2 Whole Pasture Eggs + 65g Raw Cream of Rice + 10g Almond Butter.	P: 35g F: 14g C: 50g
Meal 2 (13:00)	200g Lean Turkey Mince + 80g Dry Jasmine Rice + 150g Zucchini Slits + 10g Extra Virgin Macadamia Nut Oil.	P: 46g F: 13g C: 62g
Meal 3 (17:00)	35g Whey Protein Isolate + 150g Diced Fresh Sweet Mango + 1 Rice Cake.	P: 31g F: 1g C: 35g
Meal 4 (20:30)	190g Wild Atlantic Salmon Fillet + 220g Roasted Red Potatoes + Steamed Bok Choy Network.	P: 44g F: 23g C: 43g

DAY 3: ADDUCTOR / MID-WEEK GLYCOGEN OVERWRITE

Meal 1 (08:00)	35g Whey Protein Isolate blended into 70g Oats + 15g Chia Seeds + Water.	P: 36g F: 9g C: 53g
Meal 2 (13:00)	190g Ultra Lean Beef Mince (5% Fat) + 75g Dry Basmati Rice + 150g Steamed Broccoli Slits.	P: 47g F: 12g C: 60g
Meal 3 (17:00)	3 Whole Pasture Eggs (Scrambled) + 2 Thick Slices of Whole Grain Sourdough Toast.	P: 24g F: 16g C: 30g
Meal 4 (20:30)	210g Chicken Breast (Weighed raw) + 250g Steamed Sweet Potato chunks + Raw Avocado Salad (50g).	P: 49g F: 14g C: 48g

DAY 4: HIGH NEURAL DEMAND FOCUS RESET

Meal 1 (08:00)	150g Lean Beef Sirloin (Breakfast Cut) + 3 Egg Whites + 60g Buckwheat Groats.	P: 45g F: 11g C: 44g
Meal 2 (13:00)	200g White Fish Fillet (Cod/Haddock) + 85g Dry Jasmine Rice + 10ml Olive Oil over green beans.	P: 42g F: 12g C: 66g
Meal 3 (17:00)	35g Whey Protein Isolate + 40g Pure Raw Honey mixed with 2 Rice Cakes.	P: 30g F: 0g C: 35g
Meal 4 (20:30)	200g Lean Turkey Breast Steaks + 230g Sweet Potato Wedges + 15g Cashew Nuts.	P: 48g F: 15g C: 44g

DAY 5: SHOULDER WIDTH / ANTERIOR DEPLETION LOOP

Meal 1 (08:00)	4 Large Whole Eggs + 55g Raw Oats cooked with 5g Premium Dark Cocoa Powder.	P: 31g F: 25g C: 42g
Meal 2 (13:00)	210g Chicken Breast chunks + 75g Dry Basmati Rice + Unlimited Green Bell Pepper rings + 10ml Olive Oil.	P: 50g F: 12g C: 60g
Meal 3 (17:00)	35g Whey Protein Isolate + 1 Large Sweet Apple + 20g Pure Dark Chocolate (85%+).	P: 31g F: 9g C: 33g
Meal 4 (20:30)	180g Lean Flank Steak + 260g White Baked Potato + Asparagus Spears with lemon juice.	P: 44g F: 13g C: 49g

DAY 6: COMPLETE WEEKEND GLYCOGEN OVERHAUL

Meal 1 (08:00)	250g Low-Fat Greek Yogurt (0% Fat) + 30g Whey Protein + 65g Raw Oats + 50g Raspberries.	P: 54g F: 5g C: 52g
--------------------------	---	--

Meal 2 (13:00)	200g Lean Turkey Breast + 80g Dry Jasmine Rice + Mixed Vegetable medley (150g).	P: 47g F: 4g C: 63g
Meal 3 (17:00)	2 Whole Pasture Eggs + 4 Extra Egg Whites Scrambled + 2 Rice Cakes.	P: 32g F: 11g C: 16g
Meal 4 (20:30)	170g Sea Bass or Wild Salmon + 280g Sweet Potato Steamed + 15ml Premium Flaxseed Oil.	P: 39g F: 24g C: 51g

DAY 7: SYSTEMIC METABOLIC RESET RECHARGE

Meal 1 (08:00)	3 Whole Pasture Eggs + 150g Liquid Egg Whites scrambled + 55g Raw Cream of Rice.	P: 42g F: 16g C: 43g
Meal 2 (13:00)	200g Chicken Breast + 75g Dry Basmati Rice + 150g Broccoli + 10g Extra Virgin Walnut Oil.	P: 48g F: 12g C: 60g
Meal 3 (17:00)	35g Whey Protein Isolate + 1 Large Banana + 2 Rice Cakes with a thin layer of pure strawberry spread.	P: 30g F: 1g C: 40g
Meal 4 (20:30)	190g Lean Beef Fillet Steak + 240g Sweet Potato Mash + Large Green Mixed Leaf Field Salad.	P: 47g F: 16g C: 45g

04 / ADVANCED SUPPLEMENTATION MASTERCLASS

To pull an 80kg frame down to a shredded sub-10% state with crisp definition, we utilize extreme supplement profiling. These compounds unlock pure cellular advantage:

1. CITRULLINE MALATE (THE VASODILATION ENGINE)

Elite Protocol: 8 grams ingested precisely 30-45 minutes before entering the training block.

Biochemical Target: Functions as an immediate precursor to Nitric Oxide. Forces radical vasodilation, resulting in skin-splitting muscular pumps, hyper-accelerated nutrient tracking into active sarcoplasm, and rapid clearing of metabolic lactic acid accumulation.

2. CREATINE MONOHYDRATE (ATP SATURATION)

Elite Protocol: 5 grams taken daily post-workout alongside Meal 3 to capture maximum insulin spike sensitivity.

Biochemical Target: Forces absolute intracellular water retention and volumization within muscle cells. Radically scales up phosphocreatine reserves to fuel fast-twitch high-threshold motor unit output during heavy compound lifts.

3. WHEY PROTEIN ISOLATE (NATIVE BIOAVAILABILITY)

Elite Protocol: 35 grams post-workout or during structured low nitrogen metabolic gaps.

Biochemical Target: Cross-flow microfiltered isolate guarantees a 90%+ pure protein footprint with near-zero lactose or fats. Triggers an acute Leucine spike in the bloodstream, initiating immediate Muscle Protein Synthesis loops.

4. HIGH-YIELD OMEGA-3 FISH OIL (INFLAMMATION BLOCKER)

Elite Protocol: 3,500mg daily split cleanly across Meal 1 and Meal 4.

Biochemical Target: Massive payload of pure EPA/DHA lines cell membranes to optimize muscle insulin sensitivity. Methodically reduces high systemic joint tissue inflammation caused by the brutal 12-workout matrix load loops.

5. ESSENTIAL MICRONUTRIENT SUPPORT SYSTEM

- **Vitamin D3 + K2:** 5,000 IU D3 combined with 100mcg K2 taken with breakfast fats. Essential for structural free testosterone bioavailability.
- **ZMA (Zinc / Magnesium Aspartate):** Taken exactly 30 minutes before sleep window. Restores neurological electrical balance and deeply extends Phase 4 deep slow-wave sleep repair loops.

05 / TACTICAL CARDIO & RECOVERY PATHWAYS

Cardio during elite body recomposition is exclusively an energy expenditure lever to oxidize lipid stores without stimulating muscle-destructive cortisol pathways.

- **The LISS Formula:** 35-45 minutes of Incline Treadmill Tracking performed either fasting or immediately post-weight session. Set incline to 12-14%, speed to 4.2 km/h. Keep your heart rate locked inside the 118-128 BPM fat-oxidation window.
- **The Sleep Mandate:** Minimum 8 hours of dark, cold sleep (19°C room temperature). Growth Hormone release peaks only when the brain enters uninterrupted slow-wave sleep cycles. Disconnect blue-light electronics 60 minutes before hitting the bed.
